Introduction

The **UIA World Forum of Mediation Centres** was created in 2001. Every nine months it brings together some of the best commercial mediation practitioners and officers of commercial mediation centres from around the world, together with lawyers, business managers, academics, trainers, and others interested in learning and sharing insights about the development and use of the mediation process.

Usually there are participants from 15 to 20 or more countries in attendance, often from four or five continents, each bringing a different perspective on the use and development of mediation in their jurisdiction.

Whether you are from a place in which mediation already is readily accepted and integrated into the system of dispute resolution, or from one in which the "Dispute Resolution Revolution" is still in a not-yet-fully-accepted stage, there is something of value for you at the Forum. Each one is designed to enhance your knowledge about the mediation process, and to help you identify best practices as a media-

tor; both of which are accomplished through the various topics in the sessions, typically led by deeply-experienced mediators.

Equally, if not more, importantly, it also will provide you with ample opportunities to develop relationships and exchange insights on the development and use of mediation with colleagues from a multitude of different cultures around the world. That opportunity can have a profoundly beneficial impact on your professional expertise. To do so at one location is unique to an international event; and convening every nine months is unique to the Forum.

We are excited to have you join us for the **34th Forum in Sydney**. It will be an unforgettable international event, and colleagues from around the world have already confirmed their participation. **Since attendance at the sessions and lunch/dinner meals will be limited to the spaces available, be sure to register early so that you won't miss out.**

We look forward to seeing you in Sydney!

The research is clear that protracted litigation in any area is connected with poor mental health-unmanageable expense and delay are contributing factors.

We are all part of a family micro system and simultaneously we are interacting with potent cultural, economic and political systems.

We can ill afford to overlook the interwoven role of family dynamics in all transactions and thus in mental wellbeing.

This presentation looks at the way in which accessible and timely family mediation can resolve an emotional impasse often blocking resolution in disputes.

14:30 – 15:45 WHAT DO YOU DO WHEN...?

Mediators encounter a variety of situations in which there is not a single, clear choice of an optimal path to follow. Some are dilemmas that don't necessarily appear to involve ethical obligations ... but actually do. Some are just tough choices confronting a mediator, with "issues" arising regardless of which path is taken. The speakers – as well as attendees – in this interactive session will have the opportunity to address a number of those decision points. The objective is to better equip each of us to be able to "see" when we are in such a situation, so that we are better prepared to make the optimal choice of next step.
